Are you a good neighbor? National Good Neighbor Week is being celebrated in KCK from September 25 -29, 2023 by several organizations. To celebrate its start, a Community Cleanup is scheduled in Klamm Park, 2515 N 27 St., from 3pm-5pm.

Continue to celebrate on September 26 with elder care. Pick up a Vial of Life for your 60+ friends, family and loved ones at the Area Agency on Aging, 849C-N 47th St., Fire Sta-

tion #6, 9845 State Ave., or the WYCO Health Dept from 8am-4pm. I picked up one from the Shepherds Center of KCK at the National Night Out Against Crime event in August. The packet includes a large vial, an information sheet to be filled out (in English or Spanish) listing medical conditions, current medications, allergies, other pertinent info, pen, three stickers to put on the entry doors and refrigerator door. After info completed put instruction sheet in vial and put inside the refrigerator on the door. In case of an emergency first responders will have pertinent medical information.

Wrap up the Good Neighbor Week Celebration on September 29 with a Movie Night at Neighborhood Resource Center showing "The Lomax". Be prepared, dress in your best PJ's, bring BYO pillows, blankets, sleeping bags and snacks. Popcorn will be provided. The movie starts at 7pm. (4953 State Ave.)

I received a list of TRC's 50+ Potluck Luncheons for the rest of the year. They are all on the 3rd Wednesday of the month at noon. September's flyer had a misprint and of course I reported it as such. My bad for not checking first.

For those of you who like psychological mysteries, I have just finished two by Freida McFadden, "The Housemaid" and its sequel "The Housemaid's Secret". There are so many twists and turns you cannot literally put those books down. I thought I had each of them figured out only to find a chapter or two later,

I was all wrong not once but twice. The books had been recommended to me by members of Turner Library's "Share the Book Club" or I never would have heard of them.

Until next time, stay safe and be kind to those around you. Troubles abound in every shape and form when you least expect them.

How To Observe Good Neighbor Day

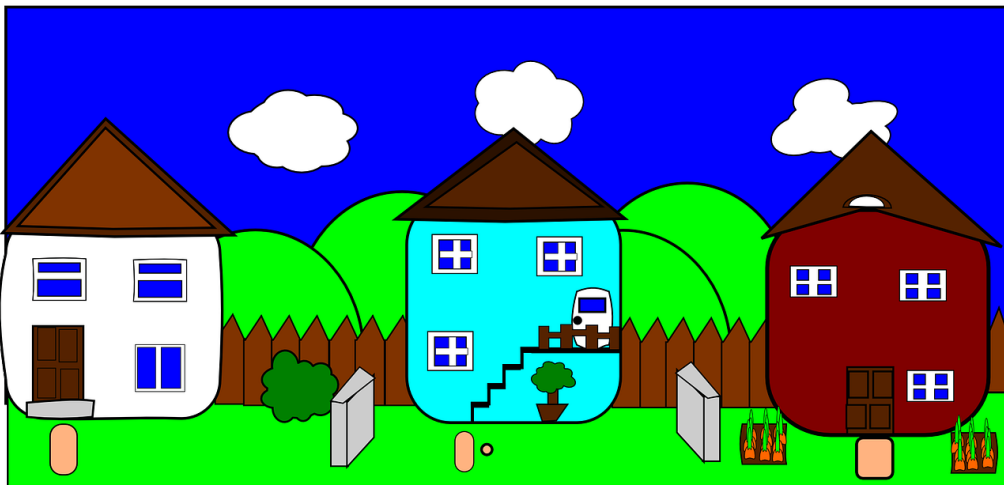

Being a good neighbor isn't all that difficult. Starting with kindness is always the first step.

- Offer a kind word. Even a small compliment goes a long way to creating a bond or breaking down barriers.
- Bring extra bounty from your garden or baked goods.
- Invite them to join an informal celebration in your home.
- Introduce them to your pets or offer a gardening tip.
- Ask who they recommend for a service such as taxes, painting, or car care. You will earn their respect, especially if the question is something they have first-hand experience with.

In the early 1970s, Becky Mattson of Lakeside, Montana created National Good Neighbor Day. In 1978, United States President Jimmy Carter issued Proclamation 4601:

"As our Nation struggles to build friendship among the peoples of this world, we are mindful that the noblest human concern is concern for others. Understanding, love and respect build cohesive families and communities. The same bonds cement our Nation and the nations of the world. For most of us, this sense of community is nurtured and expressed in our neighborhoods where we give each other an opportunity to share and feel part of a larger family...I call upon the people of the United States and interested groups and organizations to observe such day with appropriate ceremonies and activities."

The date changed in 2003 from the fourth Sunday in September to an annual observance on September 28th.

Child Passenger Safety Week

Reminds Parents And Caregivers To Keep Kids Safe

Resources to help children travel safely by properly using car seats and restraints are available in conjunction with Child Passenger Safety Week, Sept. 17-23. This safety campaign focuses on educating the public on correct installation and use of car seats throughout the year.

The Kansas Motor Carriers Association recently donated 22 car seats to the Kansas Highway Patrol that will be distributed across the state and given to parents or caregivers in need. In addition, a National Seat Check is taking place on Saturday, Sept. 30. The Kansas Traffic Safety Resource Office urges those transporting children to visit <https://ktsro.org/child-passenger-safety#station> to contact the car seat check

station nearest to them for an appointment.

Motor vehicle crashes are a leading cause of death for children. According to the National Highway Traffic Safety Administration's latest research, 46% of car seats are misused. In Kansas in 2022, 16 children (ages 18 and under) died as a result of being unbelted. Common issues are children being in the wrong type of car seat for their age and size, and car seats being installed improperly, both of which leave children vulnerable to injury in a crash.

"Most parents are trying to do their best for their kids," said KTSRO Director Tenille Kimberlin, "so they may be surprised to find out their kids aren't as safe

as possible in their vehicle. We want caregivers to know that it's worth finding out for sure."

Tips for parents and caregivers transporting children:

- **Talk to an Expert** – Certified Child Passenger Safety Technicians educate parents and caregivers about the right seats for a child's age and size and how to install the seats correctly. Visit www.nhtsa.gov/equipment/car-seats-and-booster-seats#install-inspection to see if there is a technician available in your area.

- **A Mindset Shift** – Children are often moved to the next seat or position before they're ready. Review this NHTSA chart for seat recommendations - [\[dations-for-children-by-age-size.pdf\]\(#\) Once the child is ready to use a seat belt, make sure it fits correctly and that they wear it properly. The safest place for all kids under 13 is properly restrained in the back seat.](https://www.nhtsa.gov/sites/nhtsa.gov/files/documents/carseat-recommen-

</div>
<div data-bbox=)

- **Bigger Isn't Safer** – A large vehicle will not keep a child safe in a crash if he or she is not properly restrained. In 2021, more than a third (37%) of the children killed while riding in light pickup trucks were unrestrained, followed closely by SUVs (36%), passenger cars (36%), and vans (34%).

Quotes To Ponder

By Tom Valverde

The Attorney General is authorized pursuant to New York Executive law §63(12) to: Bring an action to enjoin, repeated fraudulent or illegal acts” and persistent fraud or illegality in the “carrying on, conducting or transaction of business.” Attorney General James has initiated a Gargantuan lawsuit which could bankrupt the Trump organization and pave the way for future criminal prosecution. After being fined \$1 Million by a federal judge tired of Trump’s frivolous antics, Trump dropped his lawsuits against Attorney General James. She filed the lawsuit last September and seeks \$250Million+, and she also seeks to revoke Trump’s legal certificate to be able to conduct business in New York.

The Daily Beast

63(12) gives the Attorney General “plenary powers” to prosecute a case. A plenary trial is a bench trial with full blown discovery and depositions. James also has “summary powers” in which case there’s no jury and the Justice hears the same and then he makes the decision of guilt or innocence. Donald Trump received the benefit of the Attorney General’s discretionary decision to begin with. That both Trump and his lawyer, Alina Haba screwed up the jury trial issue indicates one of two things: Either Habba really screwed up and missed the 15 days to turn in the needed request for a trial, or, they were willing to keep the trial solely with the judge and later, take it up on appeal. They knew they were going to lose in front of a jury, so, they didn’t even bother to send in the request for a trial. Right now, there is a motion by the New York Attorney General to dispense with a trial and find as a matter of law, on the record established.

Michael Popok

Meidas Touch Political Commentator and New York Lawyer

The attorney general has a very low bar to show in order to convict. She will then be able to get the “equitable relief” that she is seeking. The more than \$250Million. The “low bar” that James needs to prove in order to get a conviction is a standard of, “Is it more likely than not that fraud occurred. She doesn’t have to go to “beyond a reasonable doubt,” as in criminal cases. CNN reported that Trump inflated his net worth by as much as \$3.6 Billion in three separate years. An amazing amount even for Trump; even more may be sought in fines. James would also seek disgorgement—the taking away of Trump’s ill-gotten gains. And she would likely seek that restitution be paid to the wronged parties. There would be an injunction against the continual fraud by the Trump organization and its people.

Lastly, Attorney General James would seek the cancellation of Trump’s Legal Certificate to do business in the state of New York. Trump and his children would be banned from being in business there and none could ever serve as officers in a New York corporation. They would be banned from ever being in business, ever again.

This record will follow them for the rest of their lives. This trial is set for October 2, 2023. It is but one of four Criminal Court cases with 91 Felony charges that Trump must face. Trump’s record of losing in New York includes the shutting down of Trump University, and of his Charitable foundation, and his defamation and sex abuse and rape case. With the low bar to prove fraud, this Bench trial can be safely assumed to result with a conviction of Trump.

In Trump’s world, he has the final say on everything. All of the charges against him are of his knowingly breaking the law for his benefit. His “act” is of an innocent man, that was targeted for political reasons. As usual, Trump lied about his innocence and about this case being brought for political reasons, it was neither. Trump has thumbed his nose at the law establishment for his entire life. Trump will be held accountable for breaking so many laws and for operating a criminal enterprise. Trump’s lies won’t be able to help him any longer.
